COVID-19 (coronavirus) absence: A quick guide for parents/ carers of children aged under 5 yrs

carers or crimaren		OING THINGS DIFFERENTLY
What to do if	Action needed	Back to settings
my child has COVID- 19 (coronavirus) symptoms*	 Child shouldn't attend early years settings Child should get a PCR test Inform settings of reason for child's absence 	if the child's test comes back negative provided they have been fever free for the 48 hours before returning to settings, and feel well
my child tests positive for COVID-19 (coronavirus)	 Child shouldn't attend setting Child is advised to self-isolate for up to 10 days** from when symptoms* started (or from day of test if no symptoms) Inform setting about test results when reporting child's absence Household members are advised to should take the following precautions: Minimise contact with case if possible. Work from home if able to do so. Avoid contact with anyone who is at a higher risk of becoming severely unwell if infected. Limit close contact with other people outside the household. Wear a face covering in crowded, enclosed or poorly ventilated spaces where you are in contact with other people.*** If you develop symptoms, isolate and take a PCR test. Follow this advice for 10 days after the day the case started with symptoms 	after 10 days, or after two negative lateral flow tests taken on consecutive days on the 5th and 6th complete day of self isolation or later** They can return to settings after 10 days (or 2 negative tests) even if they have a cough or loss of smell / taste. These symptoms can last for several weeks once the infection is gone. Children must have been fever free for 48 hours and feel well before returning.
somebody in my household has COVID-19 (coronavirus) symptoms*	 Household member with symptoms isolates and should get a PCR test Household contacts are advised to follow the advice above*** 	your child can attend settings as long as they don't have COVID-19 symptoms*

^{*}Symptoms include at least one of a high temperature; a new continuous cough; a loss of or change to your sense of smell or taste. See more at: nhs.uk/conditions/coronavirus-covid-19/symptoms
